Track One:

➤ ***EDI-101 – A Full Day Overview of Electronic Data Interchange***

Instructor: Gregg Lanni, Dell Boomi

Are you new to EDI? Does everything seem confusing and difficult to understand? This session will break down each component and give you a greater comprehension of this technology. From its beginnings to the X12 standards, translation software, communications choices and beyond you will learn what a day in the life of an EDI coordinator should be. Your instructor has 25 years of experience working with EDI in manufacturing, translation software programmer, network VAN manager, and as a consultant. In this full-day class, you will receive as much of his experience as possible. Also hear what the future might bring to the industry as well as an opportunity to ask the questions that no one else will answer.

Track Two:

➤ ***Digital Transformation: Completing the Picture with Soft Skills for Your Organization- An Innovative Full Day Course for Technical & Business Professionals***

***Instructor: Eric P. Bloom, Executive Director,
IT Management and Leadership Institute***

Digital Transformation (DX), by its very name, refers to how digital technologies can be used to generate new revenue streams, create new markets, increase internal organizational productivity and more. While the use of established and leading-edge technologies is, of course, paramount to DX related endeavors, soft skills – such as interpersonal communication, change management, influence and others – are the unsung heroes of successful DX implementations. In many cases, the technology is the easy part, getting your people to fall in line is where the challenge begins.

This presentation describes the specific leadership, communication and business skills that are needed to truly make your company's digital transformation a reality!

This talk will help you:

- Understand digital transformation concepts and organizational ramifications
- Gain insights into the leadership, business, and interpersonal communication skills needed to lead and implement digital transformation
- Learn how to integrate soft skills training into your digital transformation planning and implementation

Introduction

The New England Electronic Commerce User's Group (NEECOM) is a non-profit organization established in 1990. We focus on the practitioners of EC/EDI. Our members include manufacturers, retailers, hospitals, insurance companies, motor carriers, universities, banks and government agencies. The common thread is our interest in EC/EDI and related technologies. We welcome companies of all sizes, who are at any stage in their implementation of Electronic Commerce.

The Goals of NEECOM:

- *To provide a forum for technical and business presentations;*
- *To inform and educate the business community;*
- *To share information and new ideas;*
- *To increase the opportunity for personal contacts and networking; and*
- *To expand the regional scope of Electronic Commerce.*

Meetings

NEECOM holds two formal meetings during each year. These meetings vary in their format and may include formal presentations, classroom style education and vendor exhibits. Topics will vary depending on the interests of the group. Programs cover: basic education, advanced topics, case studies, current issues and industry updates, and are presented by a variety of guest speakers.
